480B MULCHER

The 480B is a powerful, robust mulcher, able to tackle the toughest terrain with ease. Tigercat heavy duty build quality provides superior durability with high uptime for large-scale, time-sensitive right-of-way and site preparation projects.

BENEFITS AND ADVANTAGES:

a l

Tigercat

Powerful tractive effort

- Efficient, responsive closed loop track drive system
- Excellent performance in challenging terrain

Oscillating track system

• Heavy duty track frames and mounting system

Efficient, high capacity cooling system

- Automatic variable speed fan for improved fuel economy
- Reversing cycle combats airborne dust and debris

High-lift boom geometry

Achieves high production in tough terrain, slopes and gullies

Tigercat heavy duty build quality

• Very reliable with high uptime for time-sensitive projects

Excellent access to daily service points

• Tilting cab for additional access to components

Quiet, climate-controlled operator's station

- Extreme duty, heated and cooled, air-ride seat
- Electronic control system with colour LCD display
- Insulated and isolation mounted
- High output heater and A/C

Tigercat

• Ergonomic, armrest mounted joystick steer and drive

Equipped with the Tigercat 4061 mulching head

• Choice of horizontal drum type mulching attachments requiring up to 358 kW (480 hp)

POWER AND ACCESS

Excellent performance in challenging terrain.

Neat, clean engine compartment with large doors for easy access Tilting cab for easy of the table of tabl

Tilting cab for easy access to hydraulic components.

Tigercat

to daily service points.

TIGERCAT FPT ENGINE TECHNOLOG

Tigercat FPT Tier 4f engines offer quick load response, low operating costs and high power density, combined with excellent fuel economy.

The second-generation common rail fuel injection system provides top performance in the most demanding applications.

Tigercat FPT Tier 4f emission technology is simple and reliable. The Tier 4f configuration meets emission standards without complex add-on components. The key is the patented selective catalyst reduction (SCR) after-treatment system.

Tigercat FPT engines offer improved reliability and lower long-term maintenance costs – the clear power choice for forestry and off-road industrial applications.

TIGERCAT**POWER.** TIGERCAT**SUPPORT.**

Well appointed operator's station, featuring large LCD touch screen, front/rear cameras, AM/FM CD stereo with Bluetooth® Audio and hands free calling.

High-lift boom geometry.
