

4061 MULCHING HEAD

The Tigercat 4061 offers unmatched durability and reliability. Best suited to the Tigercat 480 and M726 series mulchers, the 4061 provides the performance, uptime and confidence required for large scale, time-sensitive right-of-way and site preparation applications.

BENEFITS AND ADVANTAGES:

Tigercat heavy duty build quality

- Robust housing with reinforced side covers
- Abrasion resistant skis
- Oversized pins and bushings
- Large bearings in rotor and motor drives

Optimized housing

- Debris door cylinders mounted internally for protection
- Position references to aid in ski alignment

Efficient power transfer

- Timing belts for reduced belt slip, lower maintenance
- Excellent performance in tough terrain

Tigercat-designed tooth and holder system

- Taper lock interface for reduced changeover time
- No torque wrenches required
- Carbide tips and carbide insets for improved life

Convenient access to service and maintenance points

- Easy access to daily grease points
- Large access covers

Increased uptime

- Field serviceable wear liner, requires no welding or rotor removal
- Reversible and interchangeable shear bars for extended life
- Tapered housing shields debris, reducing build-up
