

TELEMATICS

Tigercat RemoteLog® is a complete telematics system for machine monitoring. Everything you need to know is organized within an easy-to-use web interface.

DATA THAT MATTERS.

remotelog.tigercat.com

Tigercat
Tough • Reliable • Productive

BE CONNECTED TO YOUR FORESTRY
OPERATION FROM ANYWHERE. REDUCE
DOWNTIME AND TROUBLESHOOT ISSUES
FASTER AND SMARTER.

RemoteLog provides important performance and service information in near real time using satellite transmission with no need for a cellular signal. All you need is a smartphone or computer, and the internet.

-  GEOGRAPHIC LOCATION
-  TEXT MESSAGING
-  ACTIVITY TIMELINE
-  PRODUCTION SUMMARY
-  DIAGNOSTICS
-  FUEL LEVEL AND FUEL CONSUMPTION
-  MECHANICAL DATA
-  ANALYTICS

KEEP AN EYE ON THE
DATA THAT MATTERS
TO YOU.

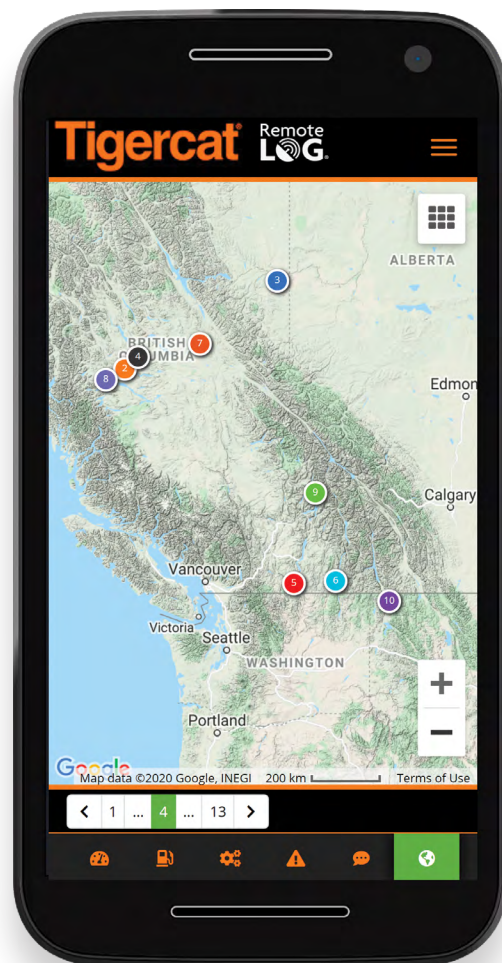

DIG DEEPER ONLY
IF YOU NEED TO.

GEOGRAPHIC LOCATION

- Locate your machines quickly using an interactive Google Map with road, satellite and topographic views
- Track machine movement over time with the breadcrumb feature
- Export all location data to analyze offline in Excel or KML format
- Upload and overlay custom maps with cut block and boundary information
- Analyze distance travelled, average speed, and time in motion

TEXT MESSAGING

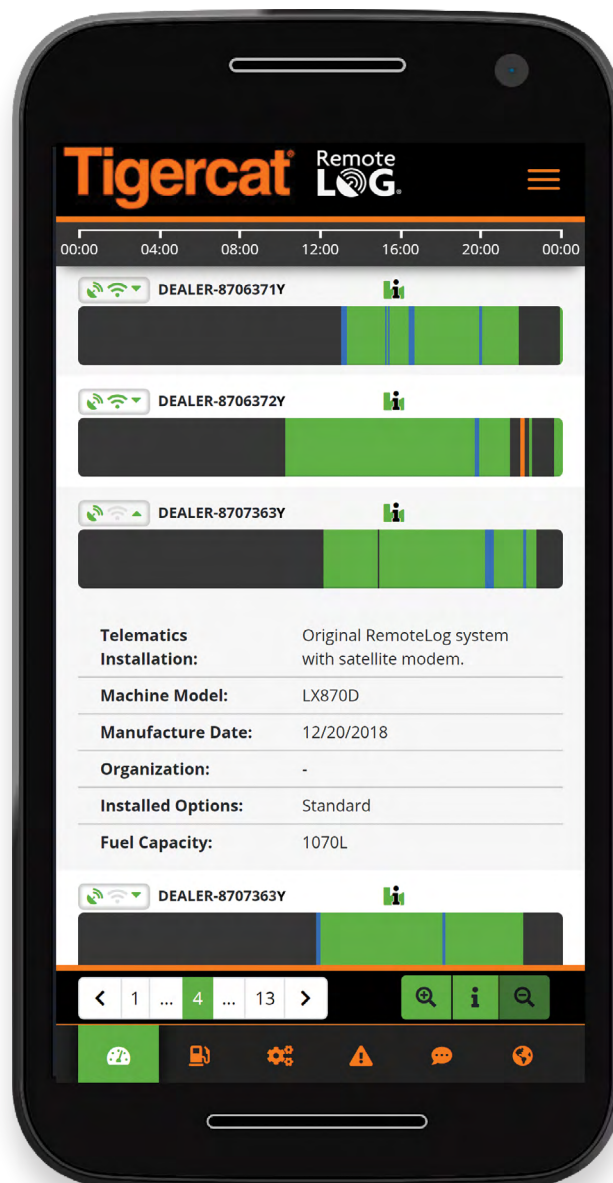

- Communicate directly with the machine operator through text messages
- Works anywhere regardless of cellular coverage
- Get direct support at the jobsite from your Tigercat dealer
- Simple pay-as-you-go data plan
- Optimize your forestry operations through better communications

ACTIVITY TIMELINE

- A visual summary of the workday reveals time spent in production, refuelling, idling and shutdown modes
- Compare multiple machines in a single view

PRODUCTION SUMMARY

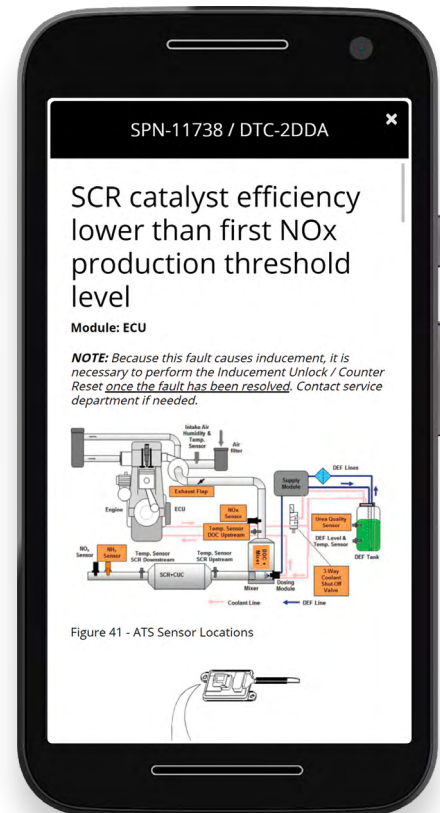

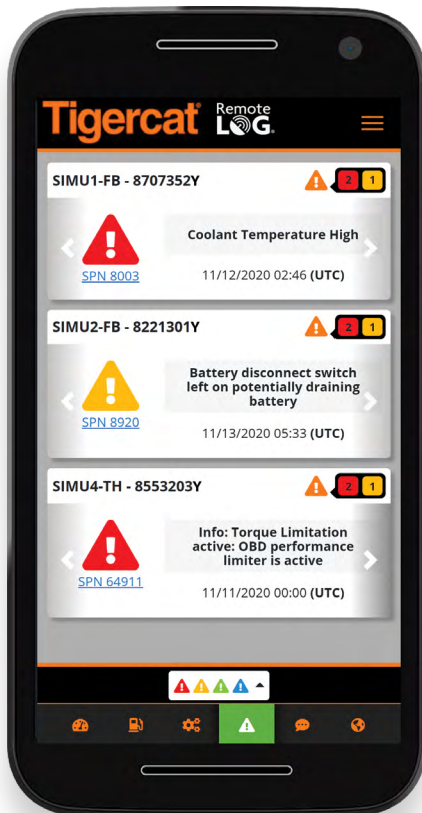

- Get a quick summary of daily activity
- Analyze work time versus idling, fuel burned and actual production
- Production volume, stem count, mulched area and load count metrics are available

DIAGNOSTICS

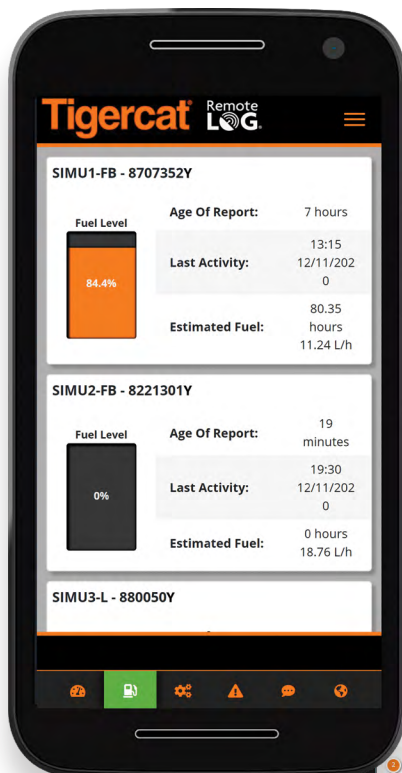

- View detailed information about any fault codes reported by your machines
- Engage in immediate triage with the assistance of troubleshooting guides
- Receive email or SMS text notifications of any fault codes (North America only)

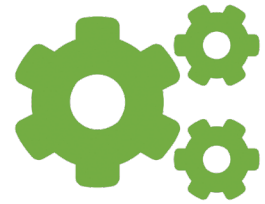

FUEL LEVEL AND FUEL CONSUMPTION

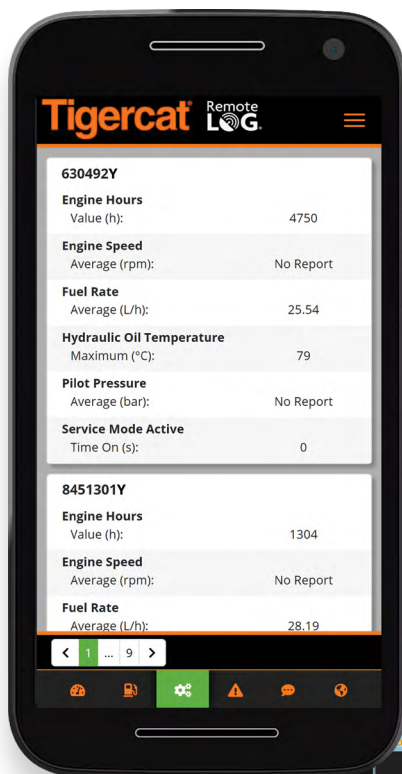

- Study current fuel levels and fuel economy
- Use estimated work time remaining to schedule refuelling

MECHANICAL DATA

- Quickly glance at a wide variety of mechanical parameters at the end of the workday
- Identify potential maintenance requirements

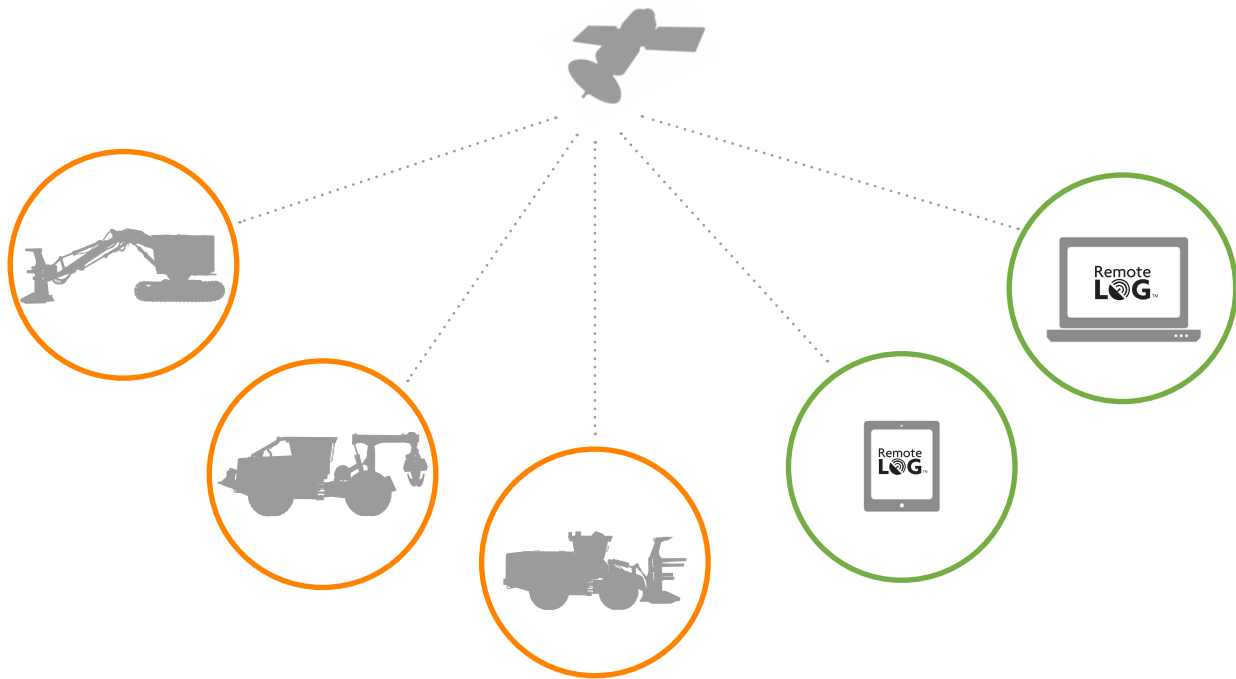

ANALYTICS

- Perform deeper analysis with analytics tools
- Report production metrics between operators and machines for a specified date range
- Compare timeline activities across machines for specific dates
- Analyze a breakdown of activity and engine exertion
- Export data to a spreadsheet or pdf report for further analysis
- Get reports sent to you via email on a pre-set schedule

QUICK FACTS:

- No operator training required
- Preset reports available with further customization if desired
- Prescheduled reports can be sent by email on a daily, weekly or monthly basis
- Custom notifications can be sent to your smartphone or email
- Fuel level reports can be sent to a central location to plan fuel deliveries
- Multi-language support, plus custom settings for local time zones
- Machines can be grouped in any combination based on type, crew, location, or other parameters
- Worksite maps can be uploaded and displayed as an overlay on Google Maps
- The machine's geographic location coordinates can be exported to Google Maps to quickly determine driving directions
- Quick and easy reference to machine hours for each machine in the fleet to help plan your maintenance
- Your Tigercat dealer can receive text or email messages communicating machine location, diagnostic messages and other important mechanical information to optimize service calls, quickly get the right parts to the right location and maximize machine uptime

GET DATA THAT MATTERS WITH TIGERCAT REMOTELOG.

When specified on a new machine, RemoteLog comes with a free subscription to start. After the free subscription ends, plans are available for purchase through your Tigercat dealer. Retrofit kits are also available for Tigercat FPT powered machines. Contact your dealer for details.
